

3.01 How Technology Is Used In My Career Discussion Scoring Guide

Total Points: 30

How Technology Is Used In My Career Discussion

Using O*NET Online, find your chosen career using the search box at the top, right of the screen.

IMAGE

Click on the Details tab and then the Technology Skills link.

IMAGE

Look here to see what technologies are used to do this job. **(10 points)**

- Discuss what you have discovered about the technology skills/tools that are used in your chosen career.
- State your career and list/explain the technology skills and tools you will use on the job.
- Be sure to choose at least one of the skills/tools you list and explain why you think this skill is important for your career.
- Post your response to the **3.01 How Technology Is Used in My Career Discussion**.

After your initial post, you should also post a response to at least two classmates regarding their post. **(10 points each response, 20 total points)**

- In your responses, you might discuss some of the technology skills that are the same for your career and theirs, or the differences.
- If the tools are different, you can comment on why your job might need one type of technology skill and theirs another.
- You might also comment on how the technology skills listed might limit social interactions with other employees on the job.

Use complete sentences, and correct spelling and grammar, in your discussion post and responses.
